Protecta-Foam
ADHESIVE FOAM

ALL PURPOSE PROTECTION

Protects:
Stained Cabinets
Stainless Steel Countertops
Faucets/Fixtures
Doorknobs
Tubs, Showers
& More!

- Safe to use on many surfaces, including sealed wood
- Allows trades to work around protection
- Perforated every 12”, eliminates cutting
- 1/16th inch foam with laminated adhesive back
- Just unroll foam and press firmly to surface to install

Prevents costly repairs and increases productivity!

30 Day or 180 Day Available

Installs in Minutes!

Not to be used on lacquer paint finishes or cabinets where cleaning agents have been used. Always test surface prior to using.

LEAD CONTAINMENT

Lead Check® Test Swabs
Rapid, sensitive test for leachable lead on any surface. Swabs turn pink when lead is present, most within 30 seconds. Do not expire.

Renovate Right Brochures
Mandatory brochures to give to customers as required for lead work.

Lead Hazard Signs
Large paper signs, 14” wide x 20” long. Available in English or Spanish.

Caution Barricade Tape
Black print on yellow tape, 3” wide x 100’ long.

Heavy Duty Trash Bags with Lead Containment Stickers
Puncture resistant, 6.0 mil thick as required for lead clean up.

Lead Clean-Up Towels
Designed for pre-cleaning prior to removal or encasement of lead and for final clean.

Visit our blog at www.surfaceprotectionexperts.com for helpful tips.

Rail Protection

Bubble or Guardrail System

**Swiftwrap™**
Adheres to itself - not your handrail!
- Prevents scratches on rails
- Easy installation with just 1 person
- Can be reused if kept clean from dust

Features:
- Cushion of 3/16th inch air bubble
- Perforated every 12" - no need for scissors
- Can be used prior to and after staining

**Safety Boot**

Now Selling
- Prevents hazardous falls
- Keeps homeowners and subcontractors safe
- Can be reused
- Protects open areas in minutes

The Safety Boot Guardrail System meets all Federal OSHA temporary guardrail regulations and has been tested by an independent engineering firm as compliant with Federal OSHA temporary guardrail regulations.

**Tapes**  
**AVOID CLEANING & REPAINTING**

### UV PROTECTIVE TAPE

- **Best selling Tape!**
- UV protected tape
- UV properties prevent flaking
- Saves you time and money
- Thick, 9 mils of protection
- Leaves no adhesive residue
- Protects original anodized finish

Ordinary threshold tapes are adversely affected by UV light leading to flaking and adhesive residue. Rather than saving time, these tapes cost you more in time and money than not using any protection.

### CONSTRUCTION TAPES

#### Polyethylene Tape
- **Professional High Quality Tapes**
- Painter’s Masking
- Duct Tape

- Pulls cleanly from roll
- Highest Quality

Tub Protection
PREVENT COSTLY TUB REPAIRS

TUB COAT™

- Protects tub with peelable layer
- Paint or Spray Application
- Apply prior to or after installation
- 1 gallon covers 2 tubs

The Extra Protection offered by Tub Coat will save you money, time and homeowner grief

According to industry data, 70% of tubs are damaged during construction

Our tub protection peelable coating protects tubs, and shower stalls against scratches, abrasions and job site dirt and grime. Easy-to-apply, the water-based coating cures to a durable, easy-to-remove "protective skin." One gallon covers approximately two standard 5' tubs. Use for protecting any Non-Porous surface. Peels off easily when the surface is no longer subjected to construction damage.

Includes pre-spray when appropriate for easy removal from acrylic tubs.

"Virtually eliminates tub repairs and reduces clean up costs. This protective peelable coating is removed in one piece like a big garbage bag enclosing all trash and debris revealing a fixture in showroom condition! The total cost adds less than $30 of coating to an average $175,000 home!" (customer feedback)
